THE SUMMARY

Well versed UX/UI, Developer/Designer with 10 years' experience that excels in a creative developmental environment. Exceptional artistic skills with thorough knowledge of the adobe suite's, 3d animation, UI/UX design, and interactive design. Embraces new technology and innovations with a strong desire and true passion.

THE EXPERIENCE

2015 – 2015
Feb - Present

Lead UX Software Engineer Applied Training Solutions

As the Lead User Experience Software Engineer, I worked at a leadership level focused on making complex concepts simplistic and appealing for the end user. I developed functional prototypes and wireframes that optimized visual appeal. Designed and built HTML & CSS web applications. Produced graphics and icon libraries for web applications.

Software: [HTML5](#), [CSS3](#), [jQuery](#), [Invision](#), [Jira](#), [Balsamiq](#), [Bootstrap](#), [Photoshop](#), [Illustrator](#), [Git](#)

2014 – 2015
Feb - Feb

UX User Experience Architect Web.com (**Contract**)

As a User Experience Architect, I designed and developed a newly introduced ecommerce experience to an existing software platform. I performed research analysis, wireframing, prototyping, and high fidelity mockups creation. I frequently met with project managers, developers and other team members to ensure the project met the business requirements.

Software: [HTML5](#), [CSS3](#), [jQuery](#), [Invision](#), [Jira](#), [Balsamiq](#), [Bootstrap](#), [Photoshop](#), [Illustrator](#)

2013 – 2013
Sep - Dec

UI/UX Designer/Developer City of Jacksonville (**Contract**)

Produced elegant functional mock-ups for future implementation. Produced website content for a responsive experience in both a desktop and mobile environment.

Software: [HTML5](#), [CSS3](#), [jQuery](#), [Kentico](#), [Adobe Suites](#)

2006 – 2013
Jan - Present

UI/UX Designer/Developer Freelance

Designed and developed custom mock-up, prototypes, and layout from scratch in several formats. Produced custom graphic, illustrations, 3d models, and simulations. Created mobile responsive websites. Developed websites in HTML formats and flash.

Software: [HTML5](#), [CSS3](#), [jQuery](#), [Kentico](#), [Adobe Suites](#), [3d Max](#) Maya, [PHP](#), [Mockingbird](#), [Javascript](#)

2013 – 2013
Aug - Sep

UI Developer Activision (**Contract**)

Worked within the Adobe CQ5 CMS system on the skylanders swapforce project producing new web content to promote product release. Also ensured that web content was mobile compatible and user friendly.
